

**AMENDMENTS TO THE SPECIFICATION**

Please replace original Brief Description of the Invention on page 4, lines 10-22, with the following amended Brief Description of the Invention:

**Brief Description of the Invention**

A personal computer embodying the invention will now be described, by way of non-limiting example, with reference to the accompanying drawings, in which

- **Figure 1** is a rear perspective view of a personal computer;
- **Figure 2** shows the personal computer of Fig 1 with a removable cover removed;
- **Figures 3(a) and 3(b)** are rear views of the personal computer with and without a cable shroud in place;
- **Figures 4(a) and 4(b)** are upper and lower left side perspective views of the cable shroud;
- **~~Figure 5 shows~~ Figures 5(a)-5(d) show** a disk drive unit in a series of positions (a) to (d) being installed in the computer.

Please replace the original paragraph on page 8, lines 13-17, with the following amended paragraph:

~~Fig. 5 shows~~ Figs. 5(a)-5(d) show disk drive unit 60, in a series of positions (a) to (d), being installed in the computer. As can be seen in Fig 5(a), unit 20 is provided with a U-shaped handle 180 with side arms pivotally mounted on respective opposing sides of unit 60. Handle 180 is lifted and pulled upwards in order to remove unit 60 from recess 40.

Preliminary Amendment  
July 17, 2003  
Page 3

Please replace the original paragraph on page 8, lines 26-30, with the following amended paragraph:

The other end of unit 20 is provided with a connector (not shown in ~~Fig. 5~~ Figs. 5(a)-5(d)) positioned to enable a flying lead to be conveniently connected manually to the unit with the studs 200 engaged in the pockets and the unit not fully pivoted into its operational position. This intermediate position is generally shown in Fig. 5(b).
